

## Senior Project: Paneling Expectations

The paneling schedule is broken up into 12 “blocks” of TED-style talks. Each day consists of 2 blocks, one in the morning and one in the afternoon. You are expected to panel responsibly for only two of these blocks. You cannot panel during the block in which you are scheduled to speak. Be prepared to treat your speakers as you would like to be treated by your panel. Panelists are expected to do the following:

### **During the presentation**

- Listen actively and carefully to the presentations of others.
- Be a source of encouragement and inspiration before, during, and after the talk.

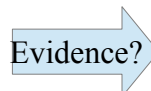

### **During the Q+A**

- You should be prepared to ask a question to every (or almost every) presenter.
- *Ask pointed questions* – These kinds of questions will be focused on the topic of the presentation. They can (and should) be difficult for the presenter to answer, but carefully crafted questions will allow the presenter to demonstrate their expertise!
- *Ask reflective questions* – questions of this nature have been provided to you all in advance. Good reflective questions will allow the speaker to shine!
- Note: Although you have received a question bank (see reverse), you can and will be asked questions that are not on that list. Prepare accordingly!

- **Panel Questions: A Few Examples**

If you are in a student panel, you may ask any question that you like. Here, however, are some large-scale examples of questions you may ask the presenter. As always, keep it formal, keep it nice, but don't shy away from applying academic pressure. (There will be copies of these questions available for panelists during the talks)

1. What was the most challenging aspect of this project for you? Explain.
2. The project was intended to help you produce the best piece of formal, academic writing so far in your lifetime. Do you feel you hit this mark? Why, or why not? Be specific.
3. If you had to start over and do this project again, explain how you would use what you have learned, and how you would improve on your product.
4. Tell us about one thing you learned over the last several months that you will definitely use in college or beyond.
5. Looking back on this year (or your whole high school career), what is one thing you still haven't mastered? Explain.
6. Tell us about a low point you hit over the course of this project. Why did you hit that point, and how did you get out of that rut?
7. Tell us about a specific content skill that you really worked hard to master. Can you share with us an example of your growth?
8. Can you describe what it was like to formulate your research question? Talk us through some of the difficulties you encountered and, ultimately, how you arrived at your chosen question.
9. In what ways do you think your research question may have limited your capacity to write a quality, academic paper?
10. What piece of advice would you offer to a Junior right now regarding Senior Project?

 Evidence? 11. What writing skill have you worked hard to master over the course of Senior Project. Can you provide evidence?

# Paneling Schedule – Senior Project Talks

Blocks 1 + 2 (Thursday 5/7)

Block 1: Thursday Morning (8:15-11:35)			Block 2: Thursday Afternoon (12:15-3:00)	
Student Speakers	Student Panelists		Student Speakers	Student Panelists
Sarah L Kohler Chase Conor Anthony	Kyle		Tyler Rex Noah Harrison	Reuben
	Allie			Araaa
	Josiaph			Rachel B
	Tanner			Marisa
	Ranier			Dakota
	Gordon			Sarah A
	Sienna			Zach
	Avra			Sean
	Bella			

### Blocks 3 + 4 (Friday 5/8)

<b>Block 3: Friday Morning (8:15-11:35)</b>			<b>Block 4: Friday Afternoon (12:15-3:00)</b>	
Student Speakers	Student Panelists		Student Speakers	Student Panelists
Kyle Allie Josiaph Tanner Reuben	Rex		Araaa Rachel Ranier	Tyler
	Harrison			Noah
	Ande			Johnny
	Riley W			Tessa
	Rachel G			Travis
	Bryn			Ivie
	Connor M			Keagan
	Emily			Avra
	Sean			Emily

## Blocks 5 + 6 (Monday 5/18)

<b>Block 5: Monday Morning (8:15-11:35)</b>			<b>Block 6: Monday Afternoon (12:15-3:00)</b>	
Student Speakers	Student Panelists		Student Speakers	Student Panelists
